ONE MONTH LEFT

TO FILE DECLARATION FOR AUGUST PRIMARY.

NO REPUBLICAN FILED

No One on Democratic Ticket For Representative and For Members of County Court.

There is only one month left for candidates to file their declaration for the August primary. At this writing not a Republican has filed as a candidate, and on the Democratic ticket no one has come out as a candidate for representative and for members of the county court.

In Republican circles it is talked that W. H. Crawford will be a candidate for prosecuting attorney, Judge W. H. Conn will seek re-election for a third term as probate judge, and J. Arthur Wray is a candidate for a second term as recorder. For county clerk C. G. McMillen is being mentioned. No one has been mentioned for the other county offices on the Republican ticket.

The following are the Democrats that have filed:

William G. Sawyers, Ellis G. Cook and Charles McCaffrey for prosecuting attorney.

L. P. Colvin for circuit clerk.

Fred Yeomans for county clerk.

Alex Fraser for recorder.

J. F. Robertson for probate judge.

During the next week or so the other candidates on the Democratic ticket will file.

There has been some discussion among the candidates for the various county offices as to how to file for the August primary. The statutes read as follows:

Section 5859. Declaration to be filed by candidate.—The name of no candidate shall be printed upon any official ballot at any primary election, unless at least sixty days prior to such primary a written declaration shall have been filed by the candidate, stating his full name, residence, office for which he proposes as a candidate, the party upon whose ticket he is to be a candidate, that if nominated and elected to such office he will qualify. • • •

Sec. 5860. Deposit made by candidates.—Each candidate, except for township office, previous to filing declaration papers, as in this article prescribed shall pay to the treasurer of the state of county central committee of the political party upon whose ticket he proposes as a candidate and seeks nomination, a certain sum of money, as follows, towit: To the treasurer of the state central committee—one hundred dollars, if he becomes a candidate for a state office, or judge of either of the courts of appeals; fifty dollars, if he be a candidate for representative in congress; tyenty-five dollars, if he be a candidate for circuit judge or state senator. To the treasurer of the county central committee—five dollars, if he be a candidate for state representative or any county office; take a receipt therefor, and file such receipt with and at the time he files his declaration papers. The said sums of money, so paid by the several candidates, shall be evidence of their good faith in filing said declaration papers, and shall be used as an expense fund by the several political parties upon whose tickets the various candidates propose as candidates and seek nomination; and such sums of money so paid, • • •

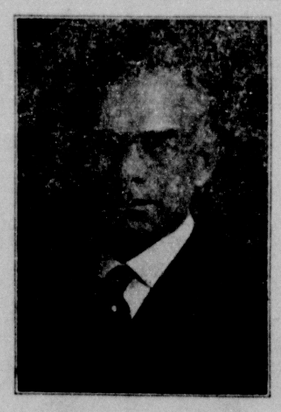
Maryville will be host to many prominent men on Wednesday, who will be here to attend the meeting of the state board of agriculture. Governor Elliott Major will arrive in the city Wednesday morning on the Wabash passenger train to spend the day here. Accompanying the governor will be William Hirth, president of the Federation of Commercial Clubs; F. W. Buffum, state highway engineer; E. G. Bennett, state dairy commissioner; J. J. Schneider, state immigration commissioner; John Stinson, secretary of the state fair board at Sedalia.

Secretary Norman M. Vaughn of the world's fair commissioners and Paul W. Brown, managing editor of the St. Louis Republic, are also expected to attend the meeting.

Jewell Mayes, secretary of the state board of agriculture, and W. D. McKee, J. K. Wright and Miss Bab Bell, lecturers for the state board, with a number of members of the board, will arrive in the city Tuesday evening on the Burlington for the meeting Wednesday.

The day's program as arranged consists of an auto tour in the morning, leaving Maryville at 7:30 o'clock. The trip will be made in thirty automobiles and stops will be made at Graham, Maitland, Skidmore, Quitman and Burlington Junction, returning to Maryville at 1 o'clock. At each town Governor Major will make a short address.



CHARLES D. BELLOWS,
A Member of the State Board, and who secured the meeting for Maryville.

In the afternoon at 2 o'clock Governor Major and a number of the prominent visitors will speak at the court house in this city. The public is cordially invited to attend and a big crowd is looked for from all over the country. The meeting of the state board will be held after the afternoon meeting at the Linville. In the evening a banquet will be given to the visitors and members of the board at the Elks club by C. D. Bellows.

The meeting at Maryville is a very important one. Mr. Bellows, a member of the state board, secured the meeting for this city.

New State Board Secretary.

Jewell Mayes, new secretary of the state board of agriculture, is a native son of Missouri (the son of a native son).

Secretary Mayes was born on the farm he now owns in Ray county, where he has spent the greater part of his life.

Both of his parents were Tennesseeans. Wiley Mayes, Sr., his grandfather, located on a farm north of Richmond, Ray county, Mo., in 1829.

His father, Wiley Mayes, Jr., died in 1880 when Jewell, the only son, was 7 years old. Being the only boy in the household, for the next eighteen years he shouldered the responsibility of the farm. Jewell Mayes became acquainted with farming and live stock by following the plowing and caring for the stock.

In recent years Secretary Mayes has been engaged in newspaper work. He still owns the farm, however, and does not hesitate to say that his first love has not been superseded by the business and editorial management of his paper, the Richmond Missourian. Secretary Mayes retains the ownership of the paper, although others handle the paper and the operating plant. While Secretary Mayes will spend practically all of his time at the office of the board in Columbia, his family will reside in Richmond for the present.

Jewell Mayes was married in 1894 to Miss Edith Frances Martin. They have one son, Martin Mayes, who is a student in Woodson institute at Richmond.

Secretary Mayes has always taken a deep interest in agricultural topics. Besides his business interest in the farm and his natural fondness for the farm, he has helped fight the battle for the farmer through the columns of his newspaper. It is mainly due to his work as publicity secretary that the single tax was defeated in Missouri. He is now state secretary of the Missouri Anti-Single Tax League.

W. L. Nelson will continue as assistant secretary. The new secretary and Mr. Nelson have been intimate friends for years and are working in hearty co-operation.

The present administration of the office of the state board of agriculture has proven that Secretary Mayes is in hearty accord with the college of agriculture. The institute lecturers and the publicity matter of the office stand strong for this institution. At present every farm institute lecturer has been a student in the college of agriculture. Missouri has few men that are any more enthusiastic over the work of the state and college and agricultural subjects in general than Secretary Mayes.

TONIGHT

"Officer John Donovan"

This is an absorbing two reel number, featuring Van Dyke Brook as a policeman, who subsequently becomes a detective. Leo Delaney appears as the wayward son and Kate Price and Norma Talmadge are in the cast. This is a straight-away crook story with good views of the gang's headquarters. The raid in the second reel is exciting and the substition of the detective for Mike Ellis is done very convincingly. Realistic crook drama.

"How The Earth Was Carpeted"

Kalpoor of Swat reigns in a land of merriment. This story is extremely funny.

CLEAN UP AND SAVE MONEY.

Insurance Rates Lower for Tidy Premises—All Should Help.

The state superintendent of insurance, Charles G. Revelle, issued a statement Saturday relative to clean-up day Monday, in which he quotes figures of reductions property owners may obtain in their fire insurance rates which range from 5 per cent up, the average on an ordinary residence insurance being perhaps 40 per cent. These reductions, he says, will be made by the agents when their attention is directed to the removal of causes likely to produce fires.

The movement for a general clean-up all over the state was started by the Missouri Federation of Women's Clubs, and May 4 was decided on as the date.

"The members of the Missouri Federation of Women's Clubs are to be commended for the work they are doing in this connection," said M. Revelle, "and it is to be hoped that every man, woman and child in the state will assist in every possible way. If you do not feel like doing this work from a purely patriotic or love of state standpoint, it will pay you to do it to get a reduction of your fire insurance."

The reduction mentioned related to defective heating, wiring, gas fixtures, hot air pipes, rubbish about premises, lack of protection for stoves, uncapped flue holes, unprotected and combustible materials, use of oil and lack of care generally of buildings used for residences and all other purposes.

Mr. Revelle advises all householders to take a look at their flues and see that there is none running through wooden partitions as well as to see that each and every stove, gas, coal, wood or gasoline, is protected from all wood by zinc or asbestos.

ON MOTHER'S DAY

MARYVILLE CHURCH TO HAVE SPECIAL PROGRAMS.

WEAR THE CARNATIONS

Miss Anna Jarvis, Philadelphia, is the Founder—Object to Uplift Motherhood.

Maryville churches will generally observe Mothers' Day next Sunday, May 10. Some are preparing programs for this day. The appropriate flower is a white carnation.

The object of Mothers' Day and how it came to be will perhaps be interesting just now, when everyone will be making preparations to observe it in some way or other.

Miss Anna Jarvis of Philadelphia, living at 2031 North Twelfth street, is the founder of the day. The idea came to her several years ago while she was planning to commemorate the anniversary of her mother's death. While wondering what flower she would lay on her mother's grave, it occurred to her that it would be a beautiful tribute to all mothers, the living as well as the dead, if the children would unite in the simple wearing of white flowers.

Miss Jarvis thought the white carnation would be the most appropriate blossom for Mothers' Day, and these are her reasons:

"Its whiteness stands for purity, its form for beauty, its fragrance for love, its wide field of growth for charity, its lasting qualities for faithfulness all attributes of the true mother."

Miss Jarvis asked everybody to wear a white carnation on his coat lapel on a certain day in honor of his mother. The idea spread rapidly, and on the appointed day scarcely a man appeared on the streets of Philadelphia whose coat was not adorned with the floral emblem.

Boston adopted the custom a few weeks later and a white carnation, unless it had been ordered weeks in advance, could not be had for love or money on Mothers' Day.

Churches in all parts of the country have also taken up the idea, and the ministers are doing everything in their power to make the movement a popular one. The governors of the states and dependencies have recognized and recommended Mothers' Day.

The object of Mothers' Day is to honor and uplift motherhood and to give happiness to "the best mother who ever lived"—your own mother.

Its observance is loving remembrance of your mother, or her memory, through some distinct act of kindness, visit, tribute or letter. Live that day as your mother would have you live it, and wear the badge of the day, a white carnation, to her memory, or a red carnation in her honor if living.

Obituary—Charles H. Woods.

I have just learned the particulars of the death of Charles H. Wood, one of the dearest friends I ever had, one of the noblest men in all the land, one of the kindest husbands and fathers I have ever known. I have known him long and well and loved him dearly. He is now at rest forever in the better land, at home with God. Farewell, dear brother until we meet on the shining shore. O how keenly am I touched over his sad passing away.

I have no ill feeling toward any human being in this world, but it does seem to me that any one with proper regard for human life would not so speed his car past a man holding frightened horses, strike him, kill him, and tear a wheel off his car. Surely not. Ought not such conduct be looked into? Ought not such reckless speeding of cars on the public highway be severely punished? I for one say yes.

JACKSONVILLE ELDER

Writes Characteristic Letter Regarding Loss of Appetite.

He says:

"Vinol is just the thing
For summer, winter, fall or spring
Follow directions, take it right,
It will save your lagging appetite.

"I know for I have tried it. For weeks I could scarcely eat enough to keep a snake alive. I have taken three bottles of Vinol and now looks like I will eat my head off. I am at the table three times a day eating as I did in the good old days when I split rails, dug wells, topped trees, plowed corn and hoed cotton. Try Vinol and see how good it feels to be real hungry."

When you ought to be hungry and are not it is because your stomach does not feel strong enough to ask for food—a sure sign of impaired general health. Better than dosing the stomach with pepsin for temporary relief is taking Vinol, our delicious tonic, which has the strengthening and bloo dmaking powe rof cod liver oil. It quickly restores appetite and perfect digestion. If Vinol does not help you it costs you nothing. Orear-Henry Drug Co., Maryville, Mo.—Advertisement.

GENERAL SICKLES HEARS DEATH'S CALL

Famous Fighter Expires at His Home in New York City.

New York, May 4.—General Daniel E. Sickles died at his home here. His wife was at his bedside at the end.

Mrs. Sickles, who had been estranged from her husband for more than a quarter of a century, went to the general's house when she was informed he was dying and took charge of the arrangements for his care. She remained near his side throughout the day and watched by him until his death.

The final reconciliation was brought about largely through the efforts of their son, Stanton, it is understood.

General Daniel Edgar Sickles was the last of the great commanders who fought the battle of Gettysburg. For a decade he was a fighter by profession—all his life he was a fighter by nature.

The gruff old warrior, with one leg shot away in battle, his massive head resembling Bismarck's, was a picturesque figure as he hobbled along on crutches during the last half century of his turbulent life. He was born in New York city in 1825.

Laredo, Tex., May 4.—The body of Porfirio Laurel, an American ranchman who disappeared last November, was recovered from a grave near Nuevo Laredo, Mexico. Laurel had been arrested by Mexican federals, who persistently denied reports of his execution, and until the body was exhumed the mystery of the Texan's absence was unexplained.

Famine Threatens People of Tampico.

Vera Cruz, Mexico, May 4.—Conditions in Tampico are daily growing more serious, according to Captain Blackadder of the Ward liner Camaguay, which arrived here, flying the Cuban flag. He said the water supply had been cut off and that conditions were filthy. The inhabitants were bordering on famine.

USE ALUMINUM.

Important as a Construction Material in the Automobile.

"It is of interest to note the importance of aluminum as a construction material in the automobile," said Elwood Haynes, pioneer automobile builder of Kokomo, Ind.

"Pure aluminum is too soft and lacking in tensile strength to be used in the motor car, but when copper is added it has the double virtue of combining great strength with very light weight.

"As early as 1896 I found it necessary to eliminate gray or castiron in making crankcases, owing to its extreme weight and the none too durable nature of its construction. Steel was even heavier and brass out of the question. After considerable waste of time and expensive experiment I found an aluminum alloy which contains 93 per cent aluminum and 7 per cent copper. It was made by melting the aluminum and afterward adding, while still in the molten state, the proper amount of copper. The alloy furnished to the trade today is of practically the same composition, and so successful has it been that it is now in universal use among builders of better motor cars.

"It is estimated that during the year 1914 the American automobile manufacturers will use over 60,000 tons of aluminum. On every car there are about seventy-five parts made of alloys of this metal. Among the most important of these are the crankcase, oil pan, steering wheel spider, vent tubes and transmission case.

"The tensile strength of the aluminum used in the Haynes car is about 20,000 pounds while the tensile strength of castiron, although three times as heavy, seldom goes above 18,000 pounds."

HUERTA SEEKS WAY TO RETIRE

Dictator Said to Be Looking for Asylum on Warship.

WOULD LEAVE THE PRESIDENCY

Said to Demand Only Safe Conduct to a Port and Is Content to Throw Up the Struggle in This Event—Prefers a Foreign Warshap.

Vera Cruz, Mex., May 4.—Persistent reports continue to circulate here that General Huerta intends to retire from the provisional presidency of Mexico on condition that he be assured a safe conduct to a port and placed on board a foreign warship.

It is declared in some Mexican circles that General Huerta was ready to resign a week ago, but was prevented from so doing by internal dissensions in his cabinet.

The disappearance from the Mexican cabinet of Jose Lopez Portillo y Rojas, the foreign minister, coupled with reports that there is a growing undercurrent in Mexico City against the Huerta government is interpreted as foreshadowing a change in the situation in the federal capital.

See New President.

Some of the close observers of the government's situation assert that Senor Rojas' resignation may clear the way for the appointment of a foreign minister, who, under the Mexican constitution could succeed General Huerta as president. In these circles it is pointed out that while Venustiana Carranza declined to treat with General Huerta, he might consent to enter into negotiations with his successor and thus facilitate mediation. The effect of the continued rebel successes in the north and the outcome of the pending attack on Tampico may bring about a rapid change in Mexico City.

While the federal capital is reported quiet, people who arrived at Vera Cruz said that the populace there was beginning to learn that General Huerta had been deceiving the people by issuing false reports of federal successes over the constitutionalists.

The news of the peaceful way in which the Americans are occupying Vera Cruz, it is said has spread to the capital and has convinced Mexicans there that the American invasion of the port is not for conquest or aggression.

Refugees assert the inhabitants of the capital fear the coming there of General Villa more than they fear that of the American troops.

The elements in Mexico City, which cling to the memory of the late President Francisco I. Madero, are reported to have been incensed by the arrest of some of the deputies, who were formerly cast into jail on charges of conspiracy.

Federals Threaten Attack.

A considerable force of Mexicans attacked the American outpost at the water plant, nine miles out of Vera Cruz.

Supporting troops were at once ordered forward by train from Vera Cruz to El Tejar, where the waterworks are situated.

What had promised to be the first fight between the United States army and the Mexican troops ended in the exchange of not more than half a dozen shots.

The Mexicans threatened to attack immediately "unless the Americans surrendered their position at the waterworks at El Tejar within ten minutes," but failed to fulfill their threat.

The Mexicans are still holding a position beyond the waterworks station and the American troops have received no orders to advance.

HONOR DEAD BLUEJACKETS

Armored Cruiser Montana Leaves Vera Cruz With Their Bodies.

Vera Cruz, May 4.—The bodies of seventeen American bluejackets and marines, who fell victims to the Mexican snipers in the street fighting during the operations accompanying the occupation of Vera Cruz, started on their way to New York on board the armored cruiser Montana.

Solemn honors were paid by the assemblage of United States war vessels as the Montana passed out of the harbor and these were joined in by the vessels of the British, French and Spanish navies.

The crews of the warships, in full uniform, lined the sides of the warships and as the Montana reached each one the men stood at attention, the marine guards presented arms and the ships' bands played funeral marches.

One by one the colors of the fighting craft sank to half-mast as the Montana steamed through a lane formed by two divisions of the Atlantic fleet. As it reached the end of the lines the Montana gradually increased speed and when it turned toward the north the flags of all the ships fluttered to the tops once more and the crews broke ranks.

On shore during the Montana's passage out the Stars and Stripes flying over Brigadier General Funston's headquarters was lowered to half-mast. The hospital ship Solace, with about 100 sick and wounded American bluejackets on board, it was stated, might sail northward later this week. All the men under treatment are doing well.

George E. Davis of Alvord, Ia., is visiting his sister, Miss Ruth Davis, who has been ill for some time. Mr. Davis is on his way home from a month's stay in Excelsior Springs.

Mrs. A. S. Dodds of Bolckow arrived Saturday noon for a week-end visit with her cousin, Mrs. Helen Hopkins.

Mr. and Mrs. William Moss of near Harmony church were shopping in the city Saturday.

MEDIATORS READY FOR FIRST STEP

Carranza Announces He Will Not Agree to Armistice.

Washington, May 4.—The mediation plans of the South American envoys who are trying to straighten out the troubled affairs of Mexico went steadily forward.

The United States, the Huerta government and General Carranza are expected to name their delegates as requested by the mediators within the next day or two. The delegate for the United States, it became known, would be one of the officials closely identified with the government. To the names of John Bassett Moore, John Lind and Henry White, already mentioned, are now added those of Richard Olney, former secretary of state; Dr. David Jayne Hill, former ambassador to Germany, and Hannis Taylor, former minister to Spain. The Huerta delegate is expected to be Francisco de la Barra, now Mexican minister at Paris. Rafael Seubaran, personal representative of General Carranza, arrived here and is available as the Carranza delegate, although his mission is still to be announced, and it is not yet definite that Carranza will go to the extent of naming a delegate to deal with the mediators.

When the delegates of the three parties arrive it is expected the mediators will be ready to take up the crucial issues between the United States and Huerta, at least, and, if possible, between Huerta and Carranza.

It became definitely established that General Carranza would not agree to the request of the mediators that he suspend military operations against Huerta pending the mediation proceedings. It is said this will have no effect on checking the general plans of mediation.

Meanwhile the campaign against the Huerta forces in the north is proceeding with full force, the mediation work not being considered by the rebels as having any bearing on the relation between Huerta and themselves. The march on Mexico City, according to those near Carranza, is to be undertaken as soon as military operations will permit.

COLONISTS LEAVE PROPERTY

Warnings Come Suddenly and They Are Forced to Flee.

Douglas, Ariz., May 4.—Thirty members of the Mormon colony at Colonia Morales, sixty miles southeast of here, arrived here overland. According to Frank Haymere, one of the party, a party of Mexicans called on the few colonists who still remained at their homes and told them that if they wished to avoid trouble they had better leave at once. The colonists were compelled to leave everything they could not crowd into a few wagons behind.

Mexican Vessel Sunk by Mine.

Mexico City, May 4.—A dispatch said to come from Manzanillo on the Pacific coast announces that the Mexican steamer Luella was sunk in the harbor by the explosion of a mine, which had been planted for the United States cruiser Raleigh. No loss of life is mentioned. The steamer belonged to the Pacific Railway company.

Americans Given Another Warning.

Mexico City, May 4.—Another warning was received by the Brazilian minister from Consul William W. Canada at Vera Cruz, who advised the remaining Americans in the federal capital to leave without delay.

Bishop Dies in Anti-American Parade.

Mexico City, May 4.—The Rt. Rev. Manuel Rivera, Roman Catholic bishop of Queretaro, died suddenly while driving in an anti-American parade.

SPECIAL SESSION IN COLORADO

Legislature Meets to Enact Strike Laws.

EMBARGO ON ARMS CONTINUES

Major Holbrook Orders None Shipped Into Colorado Except for Federal Soldiers—Saloons at Trinidad Must Remain Closed.

Denver, May 4.—The special session of the state legislature called by Governor Ammons to enact laws relative to the industrial warfare which has raged in Colorado for the last seven months met in Denver. Rumors of drastic action against certain state officials were rife, but none could be pinned down to a statement of what actually would be attempted.

The first thing on the legislative program is the selection of a speaker in the house and then it is probable that a concurrent resolution will be introduced calling for adjournment sine die at the end of two weeks. Upon this there is promised a spirited fight and the opinion among the legislators was that it would not carry.

Governor Ammons has asked for the enactment of arbitration laws, issuance of bonds to finance the past and future maintenance of the state militia, the establishment of a state constabulary and executive authority to prohibit the sale and use of intoxicating liquors and arms and ammunition in troubled regions of the state when occasion demands.

It was reported to Adjutant General Chase that two troops of cavalry from Fort Robinson, Neb., arrived in Louisville and that troop D, Colorado national guard, was withdrawn, leaving for Boulder. A brass band led a procession of strikers to greet the incoming federal troops and they were serenaded at the railway station.

Arms Embargo in Force.

Trinidad, Colo., May 4.—Major W. A. Holbrook, in command of the federal troops in Colorado, placed an embargo upon the importation of arms or ammunition into the state. He announced that any arms shipped in violation of the order would be confiscated. Major Holbrook sent a letter to Mayor W. P. Dunlavy directing him to keep the saloons of Trinidad closed until further orders.

TENT ERECTED FOR WILSON

President Will Transact Business in White House Garden.

Washington, May 4.—In anticipation that President Wilson will spend much of the summer in Washington, a large tent has been erected in the flower garden, just south of the White House, and it is expected that the president will transact much of his business during the day beneath its cool shade.

The tent is to be fitted with telephones, push buttons and other essentials of a modern office. It is located conveniently near to the executive offices, so that the president's staff will be within easy reach. It is expected it will be much cooler than the president's office.

The long legislative program mapped out for congress, together with the Mexican problem, make it probable that the president will be unable to go away for a real vacation until late in the summer, if then. The problem of preserving his health during the hot Washington summer has been worrying White House officials.

HITS "WATERED STOCK"

Hinebaugh Would Have Commission Assume Control Over Rail Securities.

Washington, May 4.—One-half of the $32,000,000,000 of railroad stocks and bonds in the United States is "water," according to Representative Hinebaugh of Illinois, who introduced in the house a bill proposing regulation by the interstate commerce commission of the issuance of such securities.

Mr. Hinebaugh's measure proposes an amendment of the interstate commerce law giving the commission power to "inquire into, supervise, and limit the issuance of stocks and bonds of all common carriers."

Guernsey Cow Breaks Record.

Philadelphia, May 4.—Nearly ten tons of milk and the equivalent of more than 1,260 pounds of butter in a year is the world's record production of the Guernsey cow "May Rilma," owned by Captain E. B. Cassett, at his Chester Brook farm at Berwyn, near here. For the 365 days the cow's record is 19,673 pounds of milk and 1,073 pounds of butterfat, the gross earnings of the animal for the year being nearly $1,200.

General Sickles Dying.

New York, May 4.—General Daniel E. Sickles, famous for his notable services to the union cause in the civil war, is dying at his home on Fifth avenue and for the first time in twenty-nine years his wife spent a night in the house of her husband. All day she watched by his side.

Five Drowned as Big Bridge Goes Out.

Oklahoma City, May 4.—Five persons are believed to have been drowned when part of the Rock Island railroad's $125,000 bridge over the South Canadian river, near Bridgeport, Okla., was washed away.

Card of Thanks.

We wish to thank our friends and neighbors for their kindness and beautiful floral offerings during the illness and death of our daughter and wife, Mrs. Jessie Griffey.

MRS. WINFIELD SCOTT.
JOHN T. GRIFFEY.

Early Days of Quitman, Mo.

Quitman was our postoffice when we settled at Burr Oak, and for a few years after the war. We called it seven miles to Quitman and we could travel nearly in a straight line then, where there were no fences. Now it is ten miles traveling at right angles. Many times during the war my youngest sister, Martha, now Mrs. H. H. Coston, rode horseback to Quitman for the mail when, on account of the frequent shooting of men from ambush, it was thought safer for women to go for the mail, etc. A man was found dead near the creek that runs into the Nodaway through the Bilby farm, which creek was crossed in going to Quitman from Burr Oak. There was a Masonic lodge at Quitman when we came, and Grigsby, A. M. Cocton and the writer belonged there. There is no doubt but Masonic ties saved the lives of many citizens during that awful war, where brother fought against brother, each according to his convictions of the matters in dispute.—William R. Hays in Skidmore New Era.

ONE MONTH LEFT

TO FILE DECLARATION FOR AUGUST PRIMARY.

NO REPUBLICAN FILED

No One on Democratic Ticket For Representative and For Members of County Court.

There is only one month left for candidates to file their declaration for the August primary. At this writing not a Republican has filed as a candidate, and on the Democratic ticket no one has come out as a candidate for representative and for members of the county court.

In Republican circles it is talked that W. H. Crawford will be a candidate for prosecuting attorney, Judge W. H. Conn will seek re-election for a third term as probate judge, and J. Arthur Wray is a candidate for a second term as recorder. For county clerk C. G. McMillen is being mentioned. No one has been mentioned for the other county offices on the Republican ticket.

The following are the Democrats that have filed:

William G. Sawyers, Ellis G. Cook and Charles McCaffrey for prosecuting attorney.

L. P. Colvin for circuit clerk.

Fred Yeomans for county clerk.

Alex Fraser for recorder.

J. F. Robertson for probate judge.

During the next week or so the other candidates on the Democratic ticket will file.

There has been some discussion among the candidates for the various county offices as to how to file for the August primary. The statutes read as follows:

Section 5859. Declaration to be filed by candidate.—The name of no candidate shall be printed upon any official ballot at any primary election, unless at least sixty days prior to such primary a written declaration shall have been filed by the candidate, stating his full name, residence, office for which he proposes as a candidate, the party upon whose ticket he is to be a candidate, that if nominated and elected to such office he will qualify. * * *

Sec. 5860. Deposit made by candidates.—Each candidate, except for township office, previous to filing declaration papers, as in this article prescribed shall pay to the treasurer of the state of county central committee of the political party upon whose ticket he proposes as a candidate and seeks nomination, a certain sum of money, as follows, towit: To the treasurer of the state central committee—one hundred dollars, if he becomes a candidate for a state office, or judge of either of the courts of appeals; fifty dollars, if he be a candidate for representative in congress; twenty-five dollars, if he be a candidate for circuit judge or state senator. To the treasurer of the county central committee—five dollars, if he be a candidate for state representative or any county office; take a receipt therefor, and file such receipt with and at the time he files his declaration papers. The said sums of money, so paid by the several candidates, shall be evidence of their good faith in filing said declaration papers, and shall be used as an expense fund by the several political parties upon whose tickets the various candidates propose as candidates and seek nomination; and such sums of money so paid, * * *

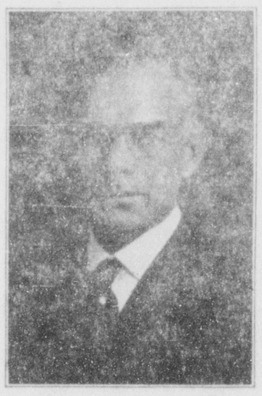
Maryville will be host to many prominent men on Wednesday, who will be here to attend the meeting of the state board of agriculture. Governor Elliott Major will arrive in the city Wednesday morning on the Wabash passenger train to spend the day here. Accompanying the governor will be William Hirth, president of the Federation of Commercial Clubs; F. W. Buffum, state highway engineer; E. G. Bennett, state dairy commissioner; J. J. Schneider, state immigration commissioner; John Stinson, secretary of the state fair board at Sedalia.

Secretary Norman M. Vaughn of the world's fair commissioners and Paul W. Brown, managing editor of the St. Louis Republic, are also expected to attend the meeting.

Jewell Mayes, secretary of the state board of agriculture, and W. D. McKee, J. K. Wright and Miss Bab Bell, lecturers for the state board, with a number of members of the board, will arrive in the city Tuesday evening on the Burlington for the meeting Wednesday.

The day's program as arranged consists of an auto tour in the morning, leaving Maryville at 7:30 o'clock. The trip will be made in thirty automobiles and stops will be made at Graham, Maitland, Skidmore, Quitman and Burlington Junction, returning to Maryville at 1 o'clock. At each town Governor Major will make a short address.



CHARLES D. BELLOWS,
A Member of the State Board, and who secured the meeting for Maryville.

In the afternoon at 2 o'clock Governor Major and a number of the prominent visitors will speak at the court house in this city. The public is cordially invited to attend and a big crowd is looked for from all over the country. The meeting of the state board will be held after the afternoon meeting at the Linville. In the evening a banquet will be given to the visitors and members of the board at the Elks club by C. D. Bellows.

The meeting at Maryville is a very important one. Mr. Bellows, a member of the state board, secured the meeting for this city.

New State Board Secretary.

Jewell Mayes, new secretary of the state board of agriculture, is a native son of Missouri (the son of a native son).

Secretary Mayes was born on the farm he now owns in Ray county, where he has spent the greater part of his life.

Both of his parents were Tennesseeans. Wiley Mayes, Sr., his grandfather, located on a farm north of Richmond, Ray county, Mo., in 1829.

His father, Wiley Mayes, Jr., died in 1880 when Jewell, the only son, was 7 years old. Being the only boy in the household, for the next eighteen years he shouldered the responsibility of the farm. Jewell Mayes became acquainted with farming and live stock by following the plowing and caring for the stock.

In recent years Secretary Mayes has been engaged in newspaper work. He still owns the farm, however, and does not hesitate to say that his first love has not been superseded by the business and editorial management of his paper, the Richmond Missourian. Secretary Mayes retains the ownership of the paper, although others handle the paper and the operating plant. While Secretary Mayes will spend practically all of his time at the office of the board in Columbia, his family will reside in Richmond for the present.

Jewell Mayes was married in 1894 to Miss Edith Frances Martin. They have one son, Martin Mayes, who is a student in Woodson institute at Richmond.

Secretary Mayes has always taken a deep interest in agricultural topics. Besides his business interest in the farm and his natural fondness for the farm, he has helped fight the battle for the farmer through the columns of his newspaper. It is mainly due to his work as publicity secretary that the single tax was defeated in Missouri. He is now state secretary of the Missouri Anti-Single Tax League.

W. L. Nelson will continue as assistant secretary. The new secretary and Mr. Nelson have been intimate friends for years and are working in hearty co-operation.

The present administration of the office of the state board of agriculture has proven that Secretary Mayes is in hearty accord with the college of agriculture. The institute lecturers and the publicity matter of the office stand strong for this institution. At present every farm institute lecturer has been a student in the college of agriculture. Missouri has few men that are any more enthusiastic over the work of the state and college and agricultural subjects in general than Secretary Mayes.

A banquet will be given Thursday by the Men's club of the First Baptist church for the men of the church. The main speaker will be Rev. Charles Durden, pastor of the Baptist church of Tarkio, whose subject will be "The Committee That Failed." Some matters of importance will also come up.

Mr. and Mrs. George Anderson and family went to St. Joseph Saturday morning to visit his brother.

TONIGHT

"Officer John Donovan"

This is an absorbing two reel number, featuring Van Dyke Brook as a policeman, who subsequently becomes a detective. Leo Delaney appears as the wayward son and Kate Price and Norma Talmadge are in the cast. This is a straight-away crook story with good views of the gang's headquarters. The raid in the second reel is exciting and the substition of the detective for Mike Ellis is done very convincingly. Realistic crook drama.

"How The Earth Was Carpeted"

Kalpoor of Swat reigns in a land of merriment. This story is extremely funny.

Beggs and signed by thirty-six others. A remonstrance petition was also filed. The case is set for Saturday.

The Nodaway county directory issued by T. J. Maloney is now ready for delivery, and The Democrat-Forum received one of the books today. The directory shows that the population of the county is 38,000, and that of the city of Maryville, 6,720. The book sells for $4.

The book contains an alphabetically arranged list of business firm and private citizens, street and avenue guide, miscellaneous directory, city and country officers, terms of court, churches, colleges, schools, banks, railways, secret, benevolent, trade and social organizations, etc., and a complete classified business directory.

CLEAN UP AND SAVE MONEY.

Insurance Rates Lower for Tidy Premises—All Should Help.

The state superintendent of insurance, Charles G. Revelle, issued a statement Saturday relative to clean-up day Monday, in which he quotes figures of reductions property owners may obtain in their fire insurance rates which range from 5 per cent up, the average on an ordinary residence insurance being perhaps 40 per cent. These reductions, he says, will be made by the agents when their attention is directed to the removal of causes likely to produce fires.

The movement for a general clean-up all over the state was started by the Missouri Federation of Women's Clubs, and May 4 was decided on as the date.

"The members of the Missouri Federation of Women's Clubs are to be commended for the work they are doing in this connection," said M. Revelle, "and it is to be hoped that every man, woman and child in the state will assist in every possible way. If you do not feel like doing this work from a purely patriotic or love of state standpoint, it will pay you to do it to get a reduction of your fire insurance."

The reduction mentioned related to defective heating, wiring, gas fixtures, hot air pipes, rubbish about premises, lack of protection for stoves, uncapped flue holes, unprotected and combustible materials, use of oil and lack of care generally of buildings used for residences and all other purposes.

Mr. Revelle advises all householders to take a look at their flues and see that there is none running through wooden partitions as well as to see that each and every stove, gas, coal, wood or gasoline, is protected from all wood by zinc or asbestos.

Col. Hughes is Back.

Col. Tom Hughes, who has been spending the winter in Punta Gorda, Fla., returned to Maryville Saturday night. He had a delightful time.

Sewell & Carter received Monday a car load of Overland cars.

Mr. and Mrs. C. D. Bellows and Fred Harvey were among the Maryville visitors in St. Joseph Monday.

ON MOTHER'S DAY

MARYVILLE CHURCH TO HAVE SPECIAL PROGRAMS.

WEAR THE CARNATIONS

Miss Anna Jarvis, Philadelphia, is the Founder—Object to Uplift Motherhood.

Maryville churches will generally observe Mothers' Day next Sunday, May 10. Some are preparing programs for this day. The appropriate flower is a white carnation.

The object of Mothers' Day and how it came to be will perhaps be interesting just now, when everyone will be making preparations to observe it in some way or other.

Miss Anna Jarvis of Philadelphia, living at 2031 North Twelfth street, is the founder of the day. The idea came to her several years ago while she was planning to commemorate the anniversary of her mother's death. While wondering what flower she would lay on her mother's grave, it occurred to her that it would be a beautiful tribute to all mothers, the living as well as the dead, if the children would unite in the simple wearing of white flowers.

Miss Jarvis thought the white carnation would be the most appropriate blossom for Mothers' Day, and these are her reasons:

"Its whiteness stands for purity, its form for beauty, its fragrance for love, its wide field of growth for charity, its lasting qualities for faithfulness all attributes of the true mother."

Miss Jarvis asked everybody to wear a white carnation on his coat lapel on a certain day in honor of his mother. The idea spread rapidly, and on the appointed day scarcely a man appeared on the streets of Philadelphia whose coat was not adorned with the floral emblem.

Boston adopted the custom a few weeks later and a white carnation, unless it had been ordered weeks in advance, could not be had for love or money on Mothers' Day.

Churches in all parts of the country have also taken up the idea, and the ministers are doing everything in their power to make the movement a popular one. The governors of the states and dependencies have recognized and recommended Mothers' Day.

The object of Mothers' Day is to honor and uplift motherhood and to give happiness to "the best mother who ever lived"—your own mother.

Its observance is loving remembrance of your mother, or her memory, through some distinct act of kindness, visit, tribute or letter. Live that day as your mother would have you live it, and wear the badge of the day, a white carnation, to her memory, or a red carnation in her honor if living.

Obituary—Charles H. Woods.

I have just learned the particulars of the death of Charles H. Wood, one of the dearest friends I ever had, one of the noblest men in all the land, one of the kindest husbands and fathers I have ever known. I have known him long and well and loved him dearly. He is now at rest forever in the better land, at home with God. Farewell, dear brother until we meet on the shining shore. O how keenly am I touched over his sad passing away.

I have no ill feeling toward any human being in this world, but it does seem to me that any one with proper regard for human life would not so speed his car past a man holding frightened horses, strike him, kill him, and tear a wheel off his car. Surely not. Ought not such conduct be looked into? Ought not such reckless speeding of cars on the public highway be severely punished? I for one say yes.

Follow directions, take it right,
It will save your lagging appetite.

"I know for I have tried it. For weeks I could scarcely eat enough to keep a snake alive. I have taken three bottles of Vinol and now looks like I will eat my head off. I am at the table three times a day eating as I did in the good old days when I split rails, dug wells, topped trees, plowed corn and hoed cotton. Try Vinol and see how good it feels to be real hungry."

When you ought to be hungry and are not it is because your stomach does not feel strong enough to ask for food—a sure sign of impaired general health. Better than dosing the stomach with pepsin for temporary relief is taking Vinol, our delicious tonic, which has the strengthening and bloo dmaking powe rof cod liver oil. GENERAL SICKLES HEARS DEATH'S CALL

Famous Fighter Expires at His Home in New York City.

New York, May 4.—General Daniel E. Sickles died at his home here. His wife was at his bedside at the end.

Mrs. Sickles, who had been estranged from her husband for more than a quarter of a century, went to the general's house when she was informed he was dying and took charge of the arrangements for his care. She remained near his side throughout the day and watched by him until his death.

The final reconciliation was brought about largely through the efforts of their son, Stanton, it is understood.

General Daniel Edgar Sickles was the last of the great commanders who fought the battle of Gettysburg. For a decade he was a fighter by profession—all his life he was a fighter by nature.

The gruff old warrior, with one leg shot away in battle, his massive head resembling Bismarck's, was a picturesque figure as he hobbled along on crutches during the last half century of his turbulent life. He was born in New York city in 1825.

USE ALUMINUM.

Important as a Construction Material in the Automobile.

"It is of interest to note the importance of aluminum as a construction material in the automobile," said Elwood Haynes, pioneer automobile builder of Kokomo, Ind.

"Pure aluminum is too soft and lacking in tensile strength to be used in the motor car, but when copper is added it has the double virtue of combining great strength with very light weight.

"As early as 1896 I found it necessary to eliminate gray or castiron in making crankcases, owing to its extreme weight and the none too durable nature of its construction. Steel was even heavier and brass out of the question. After considerable waste of time and expensive experiment I found an aluminum alloy which contains 93 per cent aluminum and 7 per cent copper. It was made by melting the aluminum and afterward adding, while still in the molten state, the proper amount of copper. The alloy furnished to the trade today is of practically the same composition, and so successful has it been that it is now in universal use among builders of better motor cars.

"It is estimated that during the year 1914 the American automobile manufacturers will use over 60,000 tons of aluminum. On every car there are about seventy-five parts made of alloys of this metal. Among the most important of these are the crankcase, oil pan, steering wheel spider, vent tubes and transmission case.

"The tensile strength of the aluminum used in the Haynes car is about 20,000 pounds while the tensile strength of castiron, although three times as heavy, seldom goes above 18,000 pounds."

HUERTA SEEKS WAY TO RETIRE

Dictator Said to Be Looking for Asylum on Warship.

WOULD LEAVE THE PRESIDENCY

Said to Demand Only Safe Conduct to a Port and Is Content to Throw Up the Struggle in This Event—Prefers a Foreign Warshap.

Vera Cruz, Mex., May 4.—Persistent reports continue to circulate here that General Huerta intends to retire from the provisional presidency of Mexico on condition that he be assured a safe conduct to a port and placed on board a foreign warship.

It is declared in some Mexican circles that General Huerta was ready to resign a week ago, but was prevented from so doing by internal dissensions in his cabinet.

The disappearance from the Mexican cabinet of Jose Lopez Portillo y Rojas, the foreign minister, coupled with reports that there is a growing undercurrent in Mexico City against the Huerta government is interpreted as foreshadowing a change in the situation in the federal capital.

See New President.

Some of the close observers of the government's situation assert that Senor Rojas' resignation may clear the way for the appointment of a foreign minister, who, under the Mexican constitution could succeed General Huerta as president. In these circles it is pointed out that while Venustiana Carranza declined to treat with General Huerta, he might consent to enter into negotiations with his successor and thus facilitate mediation. The effect of the continued rebel successes in the north and the outcome of the pending attack on Tampico may bring about a rapid change in Mexico City.

While the federal capital is reported quiet, people who arrived at Vera Cruz said that the populace there was beginning to learn that General Huerta had been deceiving the people by issuing false reports of federal successes over the constitutionalists.

The news of the peaceful way in which the Americans are occupying Vera Cruz, it is said has spread to the capital and has convinced Mexicans there that the American invasion of the port is not for conquest or aggression.

Refugees assert the inhabitants of the capital fear the coming there of General Villa more than they fear that of the American troops.

The elements in Mexico City, which cling to the memory of the late President Francisco I. Madero, are reported to have been incensed by the arrest of some of the deputies, who were formerly cast into jail on charges of conspiracy.

Federals Threaten Attack.

A considerable force of Mexicans attacked the American outpost at the water plant, nine miles out of Vera Cruz.

Supporting troops were at once ordered forward by train from Vera Cruz to El Tejar, where the waterworks are situated.

What had promised to be the first fight between the United States army and the Mexican troops ended in the exchange of not more than half a dozen shots.

The Mexicans threatened to attack immediately "unless the Americans surrendered their position at the waterworks at El Tejar within ten minutes," but failed to fulfill their threat.

The Mexicans are still holding a position beyond the waterworks station and the American troops have received no orders to advance.

HONOR DEAD BLUEJACKETS

Armored Cruiser Montana Leaves Vera Cruz With Their Bodies.

Vera Cruz, May 4.—The bodies of seventeen American bluejackets and marines, who fell victims to the Mexican snipers in the street fighting during the operations accompanying the occupation of Vera Cruz, started on their way to New York on board the armored cruiser Montana.

Solemn honors were paid by the assemblage of United States war vessels as the Montana passed out of the harbor and these were joined in by the vessels of the British, French and Spanish navies.

The crews of the warships, in full uniform, lined the sides of the warships and as the Montana reached each one the men stood at attention, the marine guards presented arms and the ships' bands played funeral marches.

One by one the colors of the fighting craft sank to half-mast as the Montana steamed through a lane formed by two divisions of the Atlantic fleet. As it reached the end of the lines the Montana gradually increased speed and when it turned toward the north the flags of all the ships fluttered to the tops once more and the crews broke ranks.

On shore during the Montana's passage out the Stars and Stripes flying over Brigadier General Funston's headquarters was lowered to half-mast. The hospital ship Solace, with about 100 sick and wounded American bluejackets on board, it was stated, might sail northward later this week. All the men under treatment are doing well.

George E. Davis of Alvord, Ia., is visiting his sister, Miss Ruth Davis, who has been ill for some time. Mr. Davis is on his way home from a month's stay in Excelsior Springs.

Mrs. A. S. Dodds of Bolckow arrived Saturday noon for a week-end visit with her cousin, Mrs. Helen Hopkins.

Mr. and Mrs. William Moss of near Harmony church were shopping in the city Saturday.

MEDIATORS READY FOR FIRST STEP

Carranza Announces He Will Not Agree to Armistice.

Washington, May 4.—The mediation plans of the South American envoys who are trying to straighten out the troubled affairs of Mexico went steadily forward.

The United States, the Huerta government and General Carranza are expected to name their delegates as requested by the mediators within the next day or two. The delegate for the United States, it became known, would be one of the officials closely identified with the government. To the names of John Bassett Moore, John Lind and Henry White, already mentioned, are now added those of Richard Olney, former secretary of state; Dr. David Jayne Hill, former ambassador to Germany, and Hannis Taylor, former minister to Spain. The Huerta delegate is expected to be Francisco de la Barra, now Mexican minister at Paris. Rafael Seubaran, personal representative of General Carranza, arrived here and is available as the Carranza delegate, although his mission is still to be announced, and it is not yet definite that Carranza will go to the extent of naming a delegate to deal with the mediators.

When the delegates of the three parties arrive it is expected the mediators will be ready to take up the crucial issues between the United States and Huerta, at least, and, if possible, between Huerta and Carranza.

It became definitely established that General Carranza would not agree to the request of the mediators that he suspend military operations against Huerta pending the mediation proceedings. It is said this will have no effect on checking the general plans of mediation.

Meanwhile the campaign against the Huerta forces in the north is proceeding with full force, the mediation work not being considered by the rebels as having any bearing on the relation between Huerta and themselves. The march on Mexico City, according to those near Carranza, is to be undertaken as soon as military operations will permit.

COLONISTS LEAVE PROPERTY

Warnings Come Suddenly and They Are Forced to Flee.

Douglas, Ariz., May 4.—Thirty members of the Mormon colony at Colonia Morales, sixty miles southeast of here, arrived here overland. According to Frank Haymere, one of the party, a party of Mexicans called on the few colonists who still remained at their homes and told them that if they wished to avoid trouble they had better leave at once. The colonists were compelled to leave everything they could not crowd into a few wagons behind.

SPECIAL SESSION IN COLORADO

Legislature Meets to Enact Strike Laws.

EMBARGO ON ARMS CONTINUES

Major Holbrook Orders None Shipped Into Colorado Except for Federal Soldiers—Saloons at Trinidad Must Remain Closed.

Denver, May 4.—The special session of the state legislature called by Governor Ammons to enact laws relative to the industrial warfare which has raged in Colorado for the last seven months met in Denver. Rumors of drastic action against certain state officials were rife, but none could be pinned down to a statement of what actually would be attempted.

The first thing on the legislative program is the selection of a speaker in the house and then it is probable that a concurrent resolution will be introduced calling for adjournment sine die at the end of two weeks. Upon this there is promised a spirited fight and the opinion among the legislators was that it would not carry.

Governor Ammons has asked for the enactment of arbitration laws, issuance of bonds to finance the past and future maintenance of the state militia, the establishment of a state constabulary and executive authority to prohibit the sale and use of intoxicating liquors and arms and ammunition in troubled regions of the state when occasion demands.

It was reported to Adjutant General Chase that two troops of cavalry from Fort Robinson, Neb., arrived in Louisville and that troop D, Colorado national guard, was withdrawn, leaving for Boulder. A brass band led a procession of strikers to greet the incoming federal troops and they were serenaded at the railway station.

Arms Embargo in Force.

Trinidad, Colo., May 4.—Major W. A. Holbrook, in command of the federal troops in Colorado, placed an embargo upon the importation of arms or ammunition into the state. He announced that any arms shipped in violation of the order would be confiscated. Major Holbrook sent a letter to Mayor W. P. Dunlavy directing him to keep the saloons of Trinidad closed until further orders.

TENT ERECTED FOR WILSON

President Will Transact Business in White House Garden.

Washington, May 4.—In anticipation that President Wilson will spend much of the summer in Washington, a large tent has been erected in the flower garden, just south of the White House, and it is expected that the president will transact much of his business during the day beneath its cool shade.

The tent is to be fitted with telephones, push buttons and other essentials of a modern office. It is located conveniently near to the executive offices, so that the president's staff will be within easy reach. It is expected it will be much cooler than the president's office.

The long legislative program mapped out for congress, together with the Mexican problem, make it probable that the president will be unable to go away for a real vacation until late in the summer, if then. The problem of preserving his health during the hot Washington summer has been worrying White House officials.

HITS "WATERED STOCK"

Hinebaugh Would Have Commission Assume Control Over Rail Securities.

Washington, May 4.—One-half of the $32,000,000,000 of railroad stocks and bonds in the United States is "water," according to Representative Hinebaugh of Illinois, who introduced in the house a bill proposing regulation by the interstate commerce commission of the issuance of such securities.

Mr. Hinebaugh's measure proposes an amendment of the interstate commerce law giving the commission power to "inquire into, supervise, and limit the issuance of stocks and bonds of all common carriers."

MRS. WINFIELD SCOTT.
JOHN T. GRIFFEY.

Early Days of Quitman, Mo.

Quitman was our postoffice when we settled at Burr Oak, and for a few years after the war. We called it seven miles to Quitman and we could travel nearly in a straight line then, where there were no fences. Now it is ten miles traveling at right angles. Many times during the war my youngest sister, Martha, now Mrs. H. H. Coston, rode horseback to Quitman for the mail when, on account of the frequent shooting of men from ambush, it was thought safer for women to go for the mail, etc. A man was found dead near the creek that runs into the Nodaway through the Bilby farm, which creek was crossed in going to Quitman from Burr Oak. There was a Masonic lodge at Quitman when we came, and Grigsby, A. M. Cocton and the writer belonged there. There is no doubt but Masonic ties saved the lives of many citizens during that awful war, where brother fought against brother, each according to his convictions of the matters in dispute.—William R. Hays in Skidmore New Era.
